

*you're invited!*

**Friday, January 20, 2012\* 10:00 AM**  
**16th & B Streets**

**city college science building**

# groundbreaking

The City College Science Building will consist of approximately 98,000 gross square feet of new construction with space for Astronomy, Life Science laboratories, Physical Science laboratories, and associated support spaces. The new building will also include multiple science lecture classrooms, faculty offices, conference area, and a 120-seat planetarium. The Science Building has been designed with the goal of achieving a Leadership in Energy and Environmental Design (LEED) Gold certification. Some of the sustainable design features include daylight harvesting, natural ventilation, enhanced commissioning, use of recycled building materials, energy management, and water efficiency.
